Lean Yellow Belt

Support optimization projects as the competent Lean project participant

Certified Lean Yellow Belt - this is the first step into a new universe. On this training you will be introduced to the Lean Mindset and we guarantee that you will get never see the world in the same way afterwards. It will be clear to you that how you - with the right Lean tools - can optimize and simplify processes.

New tools in your toolbox

This is an intensive two-day training where you will be thoroughly introduced to the Lean Principles and selected Lean tools - particularly focussing on Value Stream Mapping (VSM) and Kaizen Board meetings. The training is practically oriented, not only focusing on theoretical concepts but examples, cases, and exercises that are ready to be put to use.

Is this education for you?

The training leaves you with a proper understanding of what Lean is all about - and it enables you to actively participate in a Lean implementation or smaller Lean projects. During the training you will be working with a case from either manufacturing or service and administration.

Content of the education

The Certified Lean Yellow Belt is a two-day intensive training that is filled with practical (and fun) exercises and cases, that prepares you well to work with Lean - two days including an examination.

Day 1

- Introduction to the Lean History
- The 5 Lean Principles
- The 8 types of waste
- Overview of Lean tools - toolbox
- Kaizen - continuous improvement
- Visual Management
- Lean in practice - exercises, games, and cases

Day 2 + Yellow Belt examination

- Value Stream Mapping (VSM)
- Exercises in the use of Lean tools
- Improvements and solutions for the Value Stream
- Prioritization of solutions
- Goal management - Including customer value and expectations
- Visual board meetings - Kaizen
- Challenges in relation to implementation

Yellow Belt exam:

The module ends with a Multiple Choice test, which will reveal whether you have gained an understanding of Lean and the use of selected tools.

Subject areas

Lean Mindset - understanding Lean and how it should be practiced.

Lean Toolbox - insight into the most important Lean tools and methods

Value Stream Mapping - training in the performance of process mappings

Kaizen - the power of continuous improvements with employees engagement

Qualifications

Lean Yellow Belt is for anyone who wants to get started with Lean. We start from scratch and do not expect you to have any prior Lean experience.

Gains

The education enables you to actively participate in a Lean implementation. You will gain an understanding of Lean principles and the necessary skillset within important tools.

Examination

The module ends with a Multiple Choice test, which will reveal whether you have gained an understanding of Lean and the use of selected tools.

Price

[See the price here. Included is full catering and handed-out training material.](#)

Practical information

We are doing everything to ensure that you'll get a good experience. A perfect course is not only a result of good teaching. The physical environment surrounding that course should give you, as a student, the best conditions for learning new.

[We have collected all practical information here.](#)

LA Alumni Club

Med et Black Belt certifikat får du mulighed for at deltage i fagligt inspirerende events.

Lean Akademiets Alumni Club er vores lukkede netværksgruppe hvor tidligere kursister med bestået Black Belt eksamen inviteres til at deltage i fagligt inspirerende events.

Vi mødes to gange om året.

Samtidig med at vi mødes to gange årligt, så tilbyder vi ligeledes et rum for netværk, inspiration og sparring på vores lukkede LA Alumni Club gruppe på LinkedIn. Her er du velkommen til at dele spændende og relevant indhold.
