# Content

## Lean Yellow Belt enables you to participate in Lean transformations

This is an online Lean education. Through five webinars, video material, online presentations and case assignments we'll provide you with an thorough introduction to the Lean mindset and a skill-set within the necessary tools.

### **New tools in your toolbox**

You'll get training in several Lean tools with focus on Value Stream Mapping and Kaizen Board meetings in particular. The training is practically oriented, not only focusing on theoretical concepts but examples and exercises ready to be put to use.

### **Online access to material**

The training is performed on our training platform called 'Moodle'. You'll get exclusive access to all material, which can be downloaded free of charge. We provide support and coaching to all exercises and constructive feedback when solved.

### **Is this education for you?**

The training leaves you with a proper understanding of what Lean is about - and it enables you to actively participate in a Lean implementation. By completing your Lean Yellow Belt, you will gain a 2-day credit for the next level of education - the Lean Green Belt

### **Content of the education:**

You must attend 5 webinars of approx. 1 hour duration. After each webinar, tasks must be solved, which are uploaded by answering. All webinars are recorded meaning you can manage your own time.

#### **Webinar 1**

- Introduction to the Lean background
- The 5 Lean Principles
- Create customer value
- The 8 types of waste

#### **Webinar 2**

- Overview of the Lean toolbox
- 5S - order and tidiness
- Kanban - let the customer pull the product
- SMED - Single-Minute Exchange of Dies
- Standardized work - minimization of variance

#### **Webinar 3**

- Process mapping
- Data collection and fact box
- Suggestions for improvement
- Prioritization and execution

#### **Webinar 4**

Performance management  
Design principles  
Value Stream Mapping - future state

#### **Webinar 5**

Kaizen - continuous improvements  
Stand-up meetings  
Visual management  
Challenges in relation to implementation

#### **Examination**

A multiple choice test consisting of 20 questions

#### **Disciplines**

Lean mindset - understanding Lean and how it should be practiced.  
Lean toolbox - insight into the most important Lean tools and methods  
Value Stream Mapping - training in the performance of process mappings  
Kaizen - the power of continuous improvements with employees engagement

#### **Prerequisites**

No prior knowledge of Lean is required to participate. We start from scratch and guide you through the training and examination.

#### **Yield**

The education enables you to actively participate in a Lean implementation. You will gain an understanding of Lean principles and the necessary skillset within important tools.

## Practical info

### We are doing everything to ensure that you'll get a good experience

A perfect course is not only a result of good teaching. The physical environment surrounding that course should give you, as a student, the best conditions for learning new.

#### Time & place

All webinars start at 9:00

We send an invitation with a link to the Moodle platform, where all teaching will be held. We take care of your user creation.

#### Price

The price for this course is 3,900 DKK excluding VAT. If you want to continue with Level 2 - Lean Green Belt later, it will cost an additional 5,600 DKK.

#### Educators

Ann Møller Svendsen is responsible for the teaching on this education. Occasionally you'll meet Kion Schmeltzer and Morten Jacobsen for support and coaching.

#### Prerequisites

Lean Yellow Belt is for anyone who wants to get started with Lean. We start from scratch and do not expect you to have any prior Lean experience.

#### Materials

Lean Akademiet provides 6 months free access to all material with free downloads. Materials include presentations, e-books, movies, and exercises.

#### Examination

The module ends with a multiple choice test consisting of 20 questions.

# Teaching

## **Professional teachers with passion**

Lean Akademiet loves teaching. We're passionate and go all in when it comes to making you an expert in Lean. One thing is for sure; the theoretical knowledge, the level of experience and spirits are higher than anywhere else. We are looking forward to seeing you!

## **Facilities**

Assuring the academic and theoretical part of a course is not everything. We believe that learning has the best prerequisites when performed on a suitable online teaching platform. That's why we use our own platform called 'Moodle', where you'll be presented with presentations, assignments, videos and more.

## **Webinars and Moodle**

All online teaching takes place on our own platform on Moodle. Here we meet at the webinars and review the day's material, do small exercises and cases. Here you will find all teaching material such as presentations, exercises and cases, data templates and instructional films.

## **Instructional films**

In Moodle you will find our instructional films, which introduces you to the various tools and methods. Watch the films in preparation for the individual modules. You have access to the Moodle platform for six months so you can come back to browse materials and re-watch films.

## FAQ

### **Did you get everything you were looking for?**

We look forward to seeing you on the course! Below we have gathered answers to a number of practical questions.

#### **How do I access the material?**

Immediately after registration, you will receive a guide. Here you will find login information for our online platform 'Moodle'. It is from this platform that you can download material and access webinars.

#### **Do I get a course certificate?**

When you have completed an education or a course with us, you will receive a nicely framed course certificate to document your new Lean competencies.

#### **How is invoicing done?**

Immediately after the course registration, the course fee is invoiced. In case of cancellation due to too few participants, illness or the like, the entire course fee will be credited and refunded.

#### **Disclaimers & cancellations**

We reserve the right to make any changes to the program, time and place.

Cancellation must be made in writing. If canceled up to three weeks before the start of the course, 95 percent will be refunded. After this, there is no refund.

# Benefits

## **Like nowhere else**

You are about to attend a Lean course. But which provider to choose? We think you should sign up with us. We ensure that you are trained to the highest Lean standard, and we make teaching fun, exciting and relevant for you and your organization. We welcome you to a new world of simpler processes and a more meaningful working life.

## **Fixed courses - same team**

The strength of our teaching is that you become part of a permanent team. You network with other students and get professional coaching and support from your teachers - throughout the training process.

## **Real life experience**

You'll be educated and trained by our skilled instructors, who, in addition to teaching, work in the field of Lean implementations. We have tried walking in your shoes and tell stories from real life.

## **Professionally certified**

A good reputation is everything. We often work with clients trained by our competitors. Unfortunately, they are saddened by the level of skills online training has given them. At Lean Akademiet we educate to highest standards.

# Great yield and measurable results

## **Lean Akademiet is hands-on**

We combine laughter with seriousness and thus make the difficult stuff feel simple. The educations are build on practical exercises and simulations. We link important learning to case assignments and your work with your own project. That is why our students create measurable results in their organizations.

## **Teachers with practical experience**

Our teachers have both a great deal of theoretical knowledge as well as many years of practical experience. Stories from the real world gives some perspective to the theory.

## **We document your professionalism**

When you have completed an education or a course with us, you will receive a nicely framed course certificate to document your new Lean competencies.

## **Exclusive access to LA Alumni Club**

You get professional support and sparring throughout the training process - and once a year we meet in our LA Alumni Club for an exciting professional and social day.

# Educations

## How about a Lean belt education with physical attendance?

Our educations are built up with a belt certification in four colors. The colors have been used in martial arts for centuries as a visual identification of the level that the practitioner maintains. Today, the belt colors are also used in Lean and Six Sigma and create a common language.

Your Lean journey starts on the Lean Yellow Belt, goes through the Lean Green Belt and Lean Black Belt where you become more skilled and acquire more knowledge and get more tools. The highest level is our top education Lean Master Black Belt - after this you are among the most skilled specialists in Lean.

### **Lean Yellow Belt**

We introduce you to the Lean mindset and tools, and you become the competent Lean project participant for support in optimization projects.

### **Lean Green Belt**

Become the competent Lean project manager for optimization projects. We'll train you in Lean implementations with measurable results.

### **Lean Black Belt**

Do you want the skillset needed to perform a complete Lean rollout? In this training, you become a process specialist working across the organization.

### **Lean Master Black Belt**

This is our top education. We train you to be among the most talented Lean specialists in this country. Lean in 12 days from start to finish.
